The Rolling Film Festival brings film by and about Roma from around the world to Kosovo for a multi-day festival including also local art and talent. Following the 2009, and 2011 editions, the third edition was celebrated in December 2012. The festival has become Kosovo's most appreciated event for introducing other Kosovo communities to the Roma community, for supporting Romani artistic expression, and for providing a festive, dynamic and transformative venue for combating stereotypes and promoting positive inter-ethnic relations.

Please visit the Rolling Film Festival website for more information about past events and news on the preparation of the next edition.
