A conference on "Education of Returnees and Roma, Ashkali and Egyptian Communities: Challenges and Solutions" was organized by the EU/CoE Joint Programme "ACCESS" on April 2nd and 3rd in Prishtina. Discussion of learning centers and school mediators, both of which Balkan Sunflowers has introduced and pioneered in Kosovo, were important focuses of discussion. One of the many recognitions was voiced by Mr Klemen Miklavic of the Center for Education Policy Studies of the University of Ljubljana, who was the General Rapporteur of the Conference. In his summation of the Conference, he reported that: the Mediators are really the experts, they are the one who will bring you to the real issues of these communities.
